Please don't judge by my low prices that the dahlias are mediocre.

Dahlia Seed. Seed sown in March will produce large clumps and bloom as early as root plants. Seed gathered from cactus and exhibition stock. Liberal packet — 25c.

Columbine — A magnificent strain on long spurred large flowers in a wide range of colors and combinations and bi-colors. A liberal packet — 25c.

PACIFIC STRAIN OF POLYANTHUS PRIMROSES

As the polyanthus group is the most hardy and easiest to grow of all the primrose family, succeeding practically in every climate, I have concentrated my work on improving this particular variety.

There are many different colors, shades, blends, and hues. Bloom very early profusely for a long period of time. Require partial shade in hot climates, no-shade at all here.

I have had outstanding success in shipping successfully all over the U. S.

I ship well rooted plants of blooming age in mixed colors: — 6 for \$1.75; 12 for \$3.; 25 for \$5.50 post-paid.

HARDY EARLY ENGLISH CHRYSANTHEMUMS
